

# Domtar Dryden Forestlands STOP WORK Policy

It is a requirement for all Domtar staff, contractors and overlapping license holders to adhere to the following STOP WORK conditions while working on the Trout Lake or Wabigoon Forests **WITHOUT EXCEPTION.**

## **STOP WORK!**

- If it's unsafe to do the job
- If you are unsure of location or other instructions.
- If you do not have the approved prework in your machine
- An unidentified value is found that was not on the prework (nests, streams, Species at Risk, mine claims, sensitive soils,)
- Extreme fire weather conditions are present.
- Operations aren't in compliance with approved plans, acts and regulations.

If you encounter any of these situations, STOP WORK, notify your Supervisor or Company representative as soon as possible.
